

ecobee Smart Si

Comfort where it matters. Savings where it counts.

Installing an ecobee Smart Si is one of the best investments your customers can make in their home and pays for itself within as little as one year. Help them enjoy lower heating and cooling bills without compromising their comfort.

Comfort and savings from day one

Average 23% savings

Based on the answers to four simple questions, ecobee's comfort schedule can help homeowners save an average of 23%* on their heating and cooling bills annually.

Reliable technology

ecobee is hard-wired for reliability and has been since 2009 when we created the world's first wi-fi smart thermostat. Unlike some competitors we don't use power stealing because it is unreliable.

Full color screen

A high resolution color display and intuitive push button control make ecobee Smart Si a pleasure to use.

Weather forecast

Customers can start their day with live weather and preview the days ahead with a 5-day forecast.

Anytime, anywhere

Customers can monitor and control their wi-fi connected Smart Si anytime, from anywhere, on their smartphone, tablet, or computer.

Home IQ™

Home IQ™ makes it easy for homeowners to track their monthly heating and cooling usage, estimated energy savings, and more. It's like a home energy audit at no additional cost.

ecobee Smart Si

ecobee portal and mobile app

Helps you win the service, repair & replacement business

Multiply revenue 15x

ecobee helps you win the service, repair and replacement business by ensuring your contact information is displayed on the thermostat when service is required. Staying top of mind with your customer helps you to provide them with better service and increases the lifetime value of that customer to you.

Remote monitoring

With the ecobee contractor portal you can view HVAC reports to see customers' equipment and track performance. Arrive prepared by diagnosing the problem before going on a service call.

Easy installation

The ecobee Smart Si can be installed and set up in less than one hour, and automatically detects the local wi-fi network.

ecobee is committed to supporting contractors

HVAC tech support

Our knowledgeable technical support specialists have years of in-field experience and are available from 9 am to 9 pm from Monday through Friday.

Online resources

ecobee offers online videos, manuals, wiring diagrams, and other support documentation to help with installation, troubleshooting, and support.

Onsite training

Our strong network of Regional Sales Managers and Agents are ready to conduct on-site training at your local distributor or home office. They may even bring pizza!
